Pradeep Penugonda

Secondary Science Teacher (Years 7-10) | VCE Biology

Carnegie VIC 3163 | +61 452 668 984 | penugonda56@outlook.com | penugonda.com.au
VIT 727895, registered (provisional; full-registration evidence lodged September 2026) | Australian Permanent Resident | Working with Children Check: current

PROFESSIONAL SUMMARY

Secondary Science teacher at St Francis Xavier College since 2023, currently teaching seven Years 7 to 9 Science classes across two campuses. Research scientist by training, with three master's degrees (Teaching; Biotechnology and Bioinformatics with High Distinction; Microbiology) and three peer-reviewed publications. Data-informed practitioner: a documented Year 7 cycle of inquiry lifted the class median from 51% to 70% and moved students scoring 80% or above from 0 to 11 of 28. VCE Biology content-ready after three years tutoring Units 1 to 4. Seeking an ongoing Science position with a pathway into senior Biology and curriculum leadership.

TEACHING AREAS AND AVAILABILITY

- Science, Years 7 to 10: current, and the specialisation of my Master of Teaching.
- Biology, VCE Units 1 to 4: content expertise and three years of private tutoring; seeking a first classroom allocation.
- Chemistry, Years 7 to 10: grounded in laboratory research and industry quality-control experience.
- Open to additional junior allocations if useful to the timetable: Years 7 to 8 Mathematics and junior Humanities (not yet taught; willing to take on with support).

KEY SKILLS

Victorian Curriculum 2.0 (Science) | VCE Biology Units 1 to 4 | Inquiry-based and practical science | Explicit instruction and formative assessment | Differentiation, PLP and ILP adjustments, inclusive practice | Data-informed teaching (NAPLAN, PAT, diagnostic and summative data) | Literacy and numeracy in Science | EAL vocabulary scaffolding | Laboratory safety and practical management | Learning technologies, LMS, custom animation and digital resource design | Assessment moderation, feedback and reporting | Child safety: Child Safe Standards, Ministerial Order 1359, PROTECT, Mandatory Reporting | Pastoral care and student wellbeing | Collaborative and cross-campus curriculum planning | Accreditation to Teach in a Catholic School (in progress)

TEACHING EXPERIENCE

St Francis Xavier College, Berwick and Officer campuses January 2023 to present
Secondary Science Teacher, Years 7 to 9

- Teach seven Science classes across Years 7, 8 and 9 (full-time load) on two campuses, planning against Victorian Curriculum 2.0 following STAVCON 2025 training.
- Ran a formal cycle of inquiry with a Year 7 class of 28 students (6 on Personalised Learning Plans): profiled the class with NAPLAN, PAT and diagnostic data, set success criteria in advance and measured growth with three independent instruments. Class median rose from 51% to 70%; students at 80% or above rose from 0 to 11; one extension student moved from 27% to 90%.
- Rebuilt lesson structure around explicit instruction and same-lesson feedback: visible learning intention, chunked instruction, structured practical, then immediate low-stakes assessment.
- Introduced dissection practicals at Year 7 (a first for the campus) and designed a pluck dissection (respiratory and digestive systems), shared across both campuses with full instructions. A Year 7 water-rocket investigation I designed was adopted by a colleague's STEM class.
- Authored and submitted proposals for two new 2027 electives: Biomedical Science, and Motion, Energy and Materials.
- Produce Standard and Personalised Learning Plan versions of assessments and practicals, used across both campuses; pre-teach subject vocabulary for EAL learners in a College where about a third of students speak a language other than English at home.
- Run a voluntary lunchtime Science support service, approved by the Head of Education and open to any student in the College; students from other teachers' classes seek me out and book sessions.
- Design custom animations and digital resources for every unit, and build educational apps and interactive web resources (penugonda.com.au).
- Proposed and ran an approved Year 9 Astronomy film study with classification check, parent notification and an opt-out alternative; send a written Science update to College leadership each term.

- Member of Bosco House; take my turn preparing and reading the Acknowledgement of Country and a prayer before the whole House.
- Completed the Bill Rogers behaviour management series and applied it in practice; acted on peer observation feedback on higher-order questioning, confirmed as consistent at follow-up observation.

Private tuition (self-employed) 2023 to present

VCE Biology Tutor, Units 1 to 4

- One-to-one tuition covering course content, SAC preparation and exam technique; design of revision resources and practice assessments for individual students.

Teaching placements (55 days of supervised teaching practice) 2019 and 2022

- Mullauna College, 2022 (40 days), Year 9 Science: designed and delivered a four-week student-led research unit from scratch, including the course booklet, research-process guide, animations and a research-poster showcase.
- East Preston Islamic College, 2019 (15 days), Years 7 to 9 Science.

Eurofins, Melbourne 2021

Laboratory Assistant (internship)

- pH meter and pipette calibration, media preparation, colony counting, quality-control growth-promotion testing and Preservative Efficacy Testing under Good Laboratory Practice.

EDUCATION

- **Master of Teaching (Secondary Education)**, Victoria University, Melbourne, 2023. Specialisation: Years 7 to 10 Science
- **Master of Science (Biotechnology and Bioinformatics)**, La Trobe University, Melbourne, 2017. Graduated with High Distinction
- **Master of Science (Microbiology)**, Bangalore University, India, 2013
- **Bachelor of Science (Microbiology)**, Osmania University, India, 2010

REGISTRATION, ACCREDITATION AND PROFESSIONAL LEARNING

- Victorian Institute of Teaching: registration 727895, provisional; full-registration evidence lodged September 2026.
- Accreditation to Teach in a Catholic School: in progress, 23 of 25 hours complete (Diocese of Sale).
- LANTITE: satisfied (embedded in the Victorian initial teacher education program).
- STAVCON 2025 (Victorian Curriculum 2.0 Science); Bill Rogers Behaviour Management series; Behavioural Leadership (2025).
- Child safety and wellbeing training, current: Mandatory Reporting, PROTECT, Child Safe Standards, NCCD, Disability Standards for Education, Anaphylaxis, CPR.

PUBLICATIONS

1. Ganoderma applanatum (Persoon) Patouillard as a source of anticancer and antioxidant agent. International Journal of Pharma and Bio Sciences, 5(2): (B) 276-282, April 2014.
2. Antioxidant and anticancer activity of Tricholoma giganteum Massee, an edible wild mushroom. Academic Journal of Cancer Research, January 2014.
